PROFESSIONAL EXPERIENCE

Frontend developer

05/2024 – present

sigularity

6th october, Egypt

- Developed and maintained **scalable and reusable web applications** using **React.js** and **React Hooks**.
- Collaborated with **UI/UX designers** to ensure technical feasibility of designs and ensure responsive, mobile-first user interfaces.
- Integrated **APIs and services** with backend systems, ensuring smooth data flow between the front-end and back-end.
- **Optimized applications** for maximum performance across various devices and browsers.
- Wrote clean, maintainable, and well-documented code, adhering to industry best practices.
- **Implemented state management** solutions using **Redux** and **Context API** for better data flow.
- **Debugged and resolved cross-browser compatibility issues** and ensured that the application was responsive and accessible.
- Participated in code reviews, shared knowledge, and collaborated with team members to improve development processes.
- Kept up-to-date with the latest trends and **technologies in the React ecosystem**, implementing **new libraries and frameworks** as necessary

Front end developer

Giza system

Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements. Coded using HTML, CSS and JavaScript to develop features for both mobile and desktop platforms. Worked closely with UX/UI designers to translate their designs into functional web applications. doing styled component

01/2024 – 04/2024

Giza, Egypt

Front end developer

Dashboard

07/2024 – 09/2024

Singularity dashboard for all company that ERP system for company

Designed and developed interactive, user-friendly **dashboards** to display real-time data and key performance indicators (KPIs) for stakeholders and clients. Worked closely with **back-end developers** to integrate APIs and real-time data feeds, ensuring smooth data exchange between the front-end and back-end. Utilized **state management** with Redux and **local storage** for handling complex interactions and maintaining application state efficiently. Implemented advanced filtering and sorting features, resulting in a **X% improvement in user engagement**. Integrated **data security features**, ensuring dashboards were protected with **role-based access control** and data encryption.

EGYCON

06/2024 – 07/2024

This website for the most populer event for enemy

this website was big and have many bugs
i have used framer web builder and I coded in framer by react.js

Portfolio

02/2024

My website that i view my skills and projects and all i have learnt in my studying life

Book Store

01/2024

book store with react.js as framework and redux to add to cart

doctor Clinic

11/2023

react.js project with routing package and more pages with react-bootstrap that is help the UI

Clothes Store

10/2023

It have more categories of clothes and more dynamic and responsive website which have several static pages

TO-DO List

09/2023

Small page describe skills an JavaScript and locla storage

GYM

07/2023

Showcasing my JavaScript skills, this site has many responsive pages

Al-Ahly Page

06/2023

The first responsive website for me .it have some good section

Cars

05/2023

The first website for me .It made by html and css only
